

Dear Student,

Firstly, thanks for your patience during these uncertain times for all of us!

Due to the changes as a result of COVID-19, all traffic control students waiting for their 20hr work placement will now be required to supply their own radio, stop/slow bat and gloves as well as the normal PPE clothing requirements to attend a work site. This requirement is now a part of the policies with L4W and our TC partners moving forward to ensure health and safety for all our students as well as our traffic control partner company's staff/supervisors.

We understand that this is an unforeseen and additional cost and that you may not know what to buy or be able to get these immediately, so we have included some useful links over page to some industry suppliers.

Please contact us if you have any further questions and we will do whatever we can to assist and ensure you have the best chance of completing your 20hr placement and gain your QLD Traffic Controllers Industry Authority ASAP.

Required PPE:

- Hard Hat w/ Wide Brim and Neck Flap
- Safety Glasses
- Gloves
- Long Sleeve Fluoro Shirt
- Long Pants
- Safety Boots – Ankle High with Laces or Zip Sides
- Stop/Slow Bat
- 2 Way Radio – UHF 80 Channel

Regards,

Just Careers Training Pty Ltd t/as
